Live by Fishing
Estimates in Greenland now make a living through fishing, whaling, sealing or hunting.

Measure Warmth
A machine has been devised for measuring the warmth of fabrics used in clothes and bedding.

Volunteer Now!

Never before has a need in Daly City been so great as the need for volunteers for civilian defense duty at the present time. Registration headquarters have been set up in the basement of the city hall, 75 Wellington avenue. The Daly City Civilian Defense Council urges every citizen who can, both men and women, to register at the city hall as soon as possible.

Registration can be made at any time of the day or night. If there are any questions about registration, go to the police department.

The Civilian Defense Council also urges all who own coats, bedding, and mattresses and are willing to lend them. Notify the Civilian Defense Council and they will be called for, marked, and returned at the end of the emergency.

Hot Handle Holder

Made of a heat insulating, non-absorbent rubber, a holder has been invented to be slipped over the hot handles of cooking utensils.

AT DALY CITY THEATRE

ROMANCE UNDER ARMS! Parachute training and love seem to blend happily between Edmond O'Brien left, and Nancy Kelly, right, while daddy (Harry Carey) is pleased in a scene from RKO Radio's "Parachute Battalion." At the bottom Robert Preston seems more interested at the moment, in training than in Cupid. All four are co-starred in the film, which is now playing at the Daly City theatre.

Code of Behavior

The citizens of this community can co-operate greatly with the civilian defense council in Daly City in preparing against wartime disaster by following these simple rules:

1. Be calm and pursue the ordinary course of business.
2. Avoid the use of telephone communication as much as possible.
3. Do not congregate around scenes of disaster unless you are specially detailed by authorities to do so.
4. Avoid the use of autos as much as possible, and help keep the roads clear for police, fire departments, doctors, ambulances, and all other relief agencies.

New Airplane

The United States army has developed an observation airplane that can rise into the air 80 feet after starting a flight and stop within 100 feet of alighting.

U. S. Army Organization

The United States army consists of the regular army, national guard and organized reserves.

In his speech of Tues., Dec. 9th
PRESIDENT ROOSEVELT SAID:

"A review this morning leads me to the conclusion that at present we shall not have to curtail the normal articles of food. There is enough food for all of us and enough left over to send to those who are fighting on the same side with us."

Wild Rice

Wild rice contains 14.8 per cent protein, 8.3 per cent moisture, 3 per cent sugar, 1.5 per cent ash, 1.1 per cent fiber and small amounts of fat, phosphorus, potassium, magnesium, sulfur, calcium and chlorine, says the American Chemical Society. The process of parching the seed, introduced by the Indians to facilitate removal of the hulls, reduces appreciably the content of fat, fiber, protein, total ash, magnesium, potassium and phosphorus. In a special test it was found that the vitamin B₁ content of three samples of wild rice seed averaged 1.07 international units per gram, whereas the average of the same three samples when parched was 1.32.

Antarctic Lemonade

Scientists have discovered a mixture of chalk and lemonade in mineral form at a depth of 12,000 feet in the Weddell sea of Antarctica. The scientists cannot explain how the effervescent lemonade, heretofore found only in plants, came to be at the bottom of the Antarctic.

Withdraw Autos

Private automobiles and buses were withdrawn from use in Denmark because of severe gasoline rationing. It was estimated 60,000 vehicles were affected.

SERVE YOUR COUNTRY

★ protect your future ★

GET IN THE NAVY NOW!

America needs volunteers to keep the light of liberty burning...to safeguard our American shores...to man our new two-ocean Navy.

THE United States is now building the most powerful Navy the world has ever seen. But it takes more than ships and planes to patrol our shores, safeguard our liberty, protect millions of American homes and families. It takes men! Volunteers!

Every new battleship, new cruiser, new destroyer is just so much steel and iron until a crew of trained men—mechanics, electricians, radiomen, signalmen, carpenters and other specialists—goes aboard.

That is why the U. S. Navy may train you to be an expert in any one of forty-five modern trades and professions. You will get regular Navy pay while you are learning. And it is possible for you to be earning as much as \$126.00 a month before your first enlistment is completed.

Right now in the Navy young Americans have a double opportunity to serve their country while building their own security and independence at the same time.

Grow with the new, greater Navy

The Navy wants men to learn, to advance, to get bigger pay, to qualify for the positions of responsibility which must be filled as our naval forces are expanded. It is a real opportunity for every young man—one well worth thinking about. There is a place for you in America's new Navy.

If you have a trade now or would like to learn one, why not get the full facts about Navy opportunities and training today!

LOOK WHAT THE U. S. NAVY AND NAVAL RESERVE OFFER YOU

FREE TRAINING worth \$1500. 45 trades and vocations to choose from.

GOOD PAY with regular increases. You may earn up to \$126 a month.

EACH YEAR you are entitled to a generous vacation period with full pay.

GOOD FOOD and plenty of it.

FREE CLOTHING. A complete outfit of clothing when you first enlist. (Over \$100 worth.)

FREE MEDICAL CARE, regular dental attention.

FINEST SPORTS and entertainment.

TRAVEL, ADVENTURE, THRILLS—You can't beat the Navy for them!

BECOME AN OFFICER. Many can work for an appointment to the Naval Academy or the Annapolis of the Air at Pensacola.

FUTURE SUCCESS. It's easy for Navy-trained men to get good-paying jobs in civil life.

LIBERAL RETIREMENT—PAY for regular Navy men.

Get this FREE BOOKLET

Mail coupon for your free copy of "Life in the U. S. Navy." 24 illustrated pages. Tells pay, promotions, and vacations you can expect... how you can retire on a life income. Are you considering joining a military service? WHY NOT CHOOSE THE NAVAL RESERVE!

Don't wait. Choose the Naval Reserve now. The Secretary of the Navy has announced: "All men now enlisting in the Naval Reserve will be retained on active Navy duty throughout the period of the national emergency, but they will be released to inactive duty as soon after the emergency as their services can be spared,

regardless of the length of time remaining in their enlistment."

Remember—the regular Navy and Naval Reserve offer you the same travel, training, promotions, pay increases. Physical requirements in the Naval Reserve are more liberal. Find out all about the Naval Reserve. Send in the coupon now!

Labor of Hercules

The 12 tasks of great difficulty imposed on Hercules by the Argive king were as follows: "To slay the Nemean lion, kill the Lernean hydra, catch and retain the Arcadian stag, destroy the Erymanthian boar, cleanse the stables of King Augeas, destroy the cannibal birds of the Lake Stymphalia, take captive the Cretan bull, catch the horses of the Thracian Diomedes, get possession of the girdle of Hippolyta, queen of the Amazons; take captive the oxen of the monster Geryon, get possession of the apples of the Hesperides, and bring up from the infernal regions the three-headed dog Cerberus."

Portable Baking Powder

Baking powder is a somewhat perishable product. If overexposed to the air moisture is absorbed. It should be kept in a tightly closed can and in a cool, dry place.

Perfect Temperature

Colonial cave, near Benson, Ariz., has been explored for 20 miles. It is without moisture and the temperature remains at 72 degrees the year around.

Booming Railway Business

Passenger traffic on the Eastern Bengal railway in India has shown a substantial increase since reported healing powers of the four-year-old son of a railway station agent have become known. The boy is said to be able to cure sufferers by breathing on them.

Rice Profusion

China and India are the world's leading rice producers, with Japan ranking third. Japan's crops are supplemented by imports of the commodity.

Human Head Saved

In the Fiji Islands, the human head is held to be sacred and it is an insult to reach above the head of another person. Women in consequence crawl on their hands and knees when men are at leisure to slide a house. Persons who have been insulted are likely to commit suicide to eradicate the shame.

Over supply of Oil

When there is an over supply of oil in the crankcase the spark plugs are likely to foul quickly and cause the motor to misfire.

British Possession

New South Wales became a British possession in 1788.

Vanity Tray

A vanity tray is built into the top of a new bathroom clothes hamper.
